## **BOOK SYNOPSIS**

Most observers have assumed that school segregation in the United States was exclusively a southern phenomenon. In fact, many northern communities, until recently, engaged in explicit "southern style" school segregation whereby black children were assigned to "colored" schools and white children to white schools. Davison Douglas examines why so many northern communities did engage in school segregation (in violation of state laws that prohibited such segregation) and how northern blacks challenged this illegal activity. He analyzes the competing visions of black empowerment in the northern black community as reflected in the debate over school integration.
